

BRENZO.

FOOD CONNECTS PEOPLE

- LETTER FROM THE CHEF -

Dear guests,

We decided the most sustainable way to serve the best dining experience is to present you with a surprise menu, a very dynamic food offer that goes along with the seasons.

This choice will help underline better the guidelines for our restaurant of the future.

We will also make our mission to highlight two of the most important aspects of dining: food waste and social responsibility of everyone involved in the food value chain.

We wanna make your experience at BRENZO. a familiar and a pleasant one, we want you to feel at home. After all, this is your home away from home, It will be like going to a friend for dinner, a friend that you know and trust.

Let our team know how hungry you are and if you rather eat meat, vegetarian or vegan.

Let us know if there is something that you really don't want to eat, otherwise just sit back, relax, trust our team and enjoy the ride.

The rest, food allergies included, It will be up to us, we want you to enjoy our BRENZO. philosophy, always Nose-to-tail and Root-to-leaf.

Lorenzo &  's Team
